Swajit Abrasives Pvt. Ltd. :
lot No. K-119, M.I.D.C., Waluj, Aurangabad - 431 136. (M.S.) India.

FLAP WHEELS

Abracut Flap Wheels come with very high quality grains, specially processed virgin cloths and resins to ensure best in class performance across various industries and applications.

Major Industries Served : Automotive, General Engineering, Stainless Steel Pipe manufacturers, Stainless Steel & Aluminium Cookware manufacturers, Bright Bar manufacturers, Wood Working, Miscellaneous Pre-Polishing and Polishing applications prior to Coating, Plating and Lacquering

Grit Range: P60 - P1500 **Width Range:** 15mm - 100mm **Dia Range:** 100mm - 400mm

BELTS

Abracut make belts are available in wide & narrow widths, manufactured with specially treated Alox & Sic Grains.

Major Industries Served : Auto Components, Wood Working, Ferrous & Non-ferrous Sanitary Fittings, Glass Working, Hand Tools. Abracut Also Manufacturers Belts For Use On Portable Sanders.

Bond Categories : RRR/RR/RGR **Types of Backing :** X, Y & J Wt. Cloths

Types of Coating : Close/Open **Grit Range :** P24 to P1500

Width Range: 25mm - 1350mm

ROLLS

Manufactured with advanced Electro-Coating technique, Abracut uses specially treated Aluminium Oxide grains on specifically processed Heavy & Light Wt. Poly/Cotton Cloths. These are perfectly bonded in RRR, RR and RGR bonds.

Major Industries Served : Automotive, General Engineering, Stainless Steel Pipes & Cookware manufacturers, Sanitary Ware, Pharmaceutical Equipment manufacturers, Wood Working, Miscellaneous Pre-Polishing and manual Polishing applications

Bond Categories : RR & RGR

Types of Backing : X, Y & J Wt. Cloths

Types of Coating : Close/Open

Grit Range : P24 to P1500

Width Range: 25mm - 1350mm

FLAP DISC

Abracut Aluminium Oxide Flap Wheel offers reliable grinding, more delicate blending and finishing action. The combination of high density flaps and grains processed on superior cloth ensures longer service life and quick cutting, grinding, finishing operation.

Areas of Application: Weld Cleaning, Rust removal, Paint removal, Edge radiusing, General deburring, cleaning and finishing

Grit Range: P60 - P120

Diameter: 100mm

Internal Diameter: 16mm

PLAIN ABRASIVE CLOTH DISC

Abracut Plain Abrasive cloth discs are specially developed using Anti-loading and Anti - Clogging agents.

Areas of Application: Finishing of Wooden patterns in foundries, Preparation of Metallographic Specimen in metallographic labs, Steel Smelting Units, Fibreglass sanding, General deburring, cleaning and finishing

Grit Range: P24 - P600

Dia Range: 3 inches - 36 inches

SPINDLE MOPS

Spindle mops from Abracut are manufactured with latest technology available & offers uniform material removal without loading and provides uniformity in finishing. 6mm shank ensures smooth operation on high speeds.

Areas of Application: Grinding and Polishing of various ferrous and non-ferrous metals, wood, hard plastics. Different sizes enables surface finishing on hard to reach areas.

Grit Range: P60 - P400

Width Range: 20mm - 60mm

Dia Range: 25mm - 80mm
